

Academic Policies and Procedures

1.1. Length of Undergraduate Study Program

JIU Campus operates on a two-semester system with an additional supplementary term. Regular courses are taught over two semesters each year. Undergraduate students typically require 8 to 10 semesters to graduate. Each semester includes 16 weeks of instruction, including mid-term and final exams. The standard week includes five days of classes and one designated day for make-up sessions.

1.2. Academic Credits

- (1) Each faculty specifies the total academic credits for its respective subjects. The credit allocation depends on the course content, the method of instruction, and the pedagogy used. Generally, however, each subject is worth three credits, which are earned through a combination of:
 - a. Class instructions
 - b. Structured academic activities (exams, quizzes, class exercises, etc.).
 - c. Homework and assignments
- (2) To obtain an undergraduate degree, the student must successfully complete a minimum of 144 credits during the course of his/her study program.
- (3) "Successfully complete" means a student has passed all subjects or has retaken and passed any subjects they previously failed. Please note that academic credits are not awarded for "Failed" subjects.

1.3. Class Attendance

- (1) Students must come to class on time. The lecturer has the right and authority to bar any student who is late from entering the class.
- (2) Students are required to attend their classes at all times.

- (3) Students who incur 3 (three) unauthorized absences for each subject shall not be allowed to attend their Final Examination/Final Project, unless he or she can provide evidence that the reason for absence is acceptable as per campus regulations.
- (4) Students will be given permission and not be marked absent for the following reasons:
 - a. To attend to family emergencies or a death in the family/among close relatives.
 - b. When hospitalized, ill, or recuperating from illness as shown by a valid Medical Certificate.
- (5) Students who would like to attend extracurricular activities organized by the campus should ask permission from the Director of Student Affairs, who will then consider the request and act accordingly. The Director of Student Affairs has the right and authority to disallow or disapprove any request in the interest of the student and the campus.
- (6) In the interest of ensuring order and preparation for exams, the campus shall discourage the holding of extracurricular activities 2 (two) weeks prior to the Final Examinations. Exceptions to this policy shall be treated on a case-by-case basis and shall be approved by the head of each department (Economics & Foreign Languages).
- (7) Students who would like to ask permission to be absent from class due to the reasons cited above should write a letter to the Dean of Academic and Student Affairs, who will then consider and approve/disapprove the request and forward it to the head of each department concerned.

1.4. Assessment of Student Academic Performance

1.4.1. The Assessment Components

The following are components of the assessment of a student's academic performance:

- a. Examinations (mid-exam and final exam)
- b. Quizzes and class exercises
- c. Class participation
- d. Projects (internal or external)
- e. Assignments/Homework
- f. Any other activities that a lecturer may assign as part of the overall assessment for a subject.

1.4.2. Examinations

There are two types of examinations:

Semester Tests

- (1) Semester Tests Semester tests are comprised of two parts: the mid-term exam and the final exam. The mid-term exam is given after completing at least 8 weeks of lectures, while the final exam is conducted after all lecture materials have been delivered for the semester. The mid-term exam and final exam are scheduled on the academic calendar, which is announced to the students.
- (2) The lecturer will decide whether to give closed-book or open-book examinations.
- (3) The examinations may be in any of the following forms: project assignments and/or presentations, written tests, verbal tests, or take-home tests as decided by the lecturer.
- (4) The types of questions in a written test—open or closed—can be any of the following: short answers, essays, problem-solving/cases, or a combination of these.
- (5) Multiple-choice tests are not ideal and are avoided as much as possible.

The Thesis or Final Project Examination

The thesis or final project is an examination that has to be taken by students in order to complete a study program. The nature of this test is holistic, covering all disciplines related to the field of study. The test is based on the thesis or final project materials, which have been completed according to the guidelines for the thesis/final project decided by the campus. The comprehensive test is organized by the Dean of Academic Affairs and the head of the study program.

1.5. Examination Rules

1.5.1. Requirements

Any financial liabilities must be settled before the final exam. If such obligations are not settled, the campus shall:

- a. Not approve the student from taking the final-exam
- b. Withhold the student's grades

- c. Not allow the student to enroll in the forthcoming semester.

1.5.2. General Regulations

- (1) Lecturers and/or the Academic Affairs Department will inform those students who are not qualified to take the exams. Students have the responsibility to check this information and fulfill the requirements prior to the exam.
- (2) Students have to be present 10 (ten) minutes before the test begins. Students should only enter the exam room after the proctors allow them to.
- (3) Students can only start the exam after the proctor instructs them to do so.
- (4) Students who come late may be allowed to take the test without extending the time of the test, provided it is before anyone leaves the exam room.
- (5) Students who are in the test room are not allowed to leave the room after the distribution of the test materials.
- (6) Students are allowed to bring equipment or materials only when approved by the test committee, unless the lecturer gave an open-book exam.
- (7) Students who violate the test rules will automatically get a failing grade of the course.
- (8) Students have to sit in the exam room according to the seating arrangement.
- (9) All mobile phones should be switched off.
- (10) Students have to wear decent and neat attire (no slippers and no shorts).
- (11) The proctors have the authority to extricate from the room any student who violates the exam rules and shall document this incident on the examination report.
- (12) Students are allowed not to come on examination day if the lecturers give the score before examination day and the student provides evidence signed by the lecturer.

1.5.3. Re-sit Examination

Students who are unable to take the exam at the prescribed time due to several reasons, such as scholastic events, medical conditions, the death of a family member, or other unavoidable circumstances, may request make-up exams with different problems given by the lecturer. Please note the following conditions carefully:

- (1) Take and complete a make-up exam form in the Academic Affairs Department.

- (2) Request for make-up exams must be submitted to the Academic Affairs Department no later than THREE (3) working days after the date of the prescribed examination.
- (3) Attach supporting documents, such as your physician's statement or a valid permission letter from the Head of Faculty if you are attending an event for the campus.
- (4) A student who is unable to attend an examination due to participation in a specific scholastic event (by JIU's request) or an acute medical condition may be exempted from paying the request fee. Exemption is subject to approval by the Head of the Study Program.
- (5) A make-up exam is not a right, and permission is only given in exceptional circumstances.
- (6) The lecturer and the Head of the Study Program have the right to deny the student's request if they fail to provide sufficient evidence of the circumstances that prevented them from sitting the examination on the prescribed date.
- (7) Students are not allowed to defer a make-up exam. Failing to attend a make-up exam will automatically grant a ZERO (0) score on the exam.

1.6. Grading Policy and Systems

1.6.1. Grading Policy

Grading is an objective way of proving the participation of a student in the relevant experiences of a course. The quality of a student's performance in achieving the course goals is evaluated and recorded in the form of grades. Grading is the sole responsibility of the lecturer. The grade for each course entered on the Final Grade Report is the accumulation of grades following the weighted evaluation elements of each course.

As a guideline, the weight assigned to each element of the assessment is shown below:

- a. The weight for a final exam or its substitute: 30% - 40%
- b. The weight for a mid-exam or its substitute: 20% - 40%
- c. The weight for projects, presentation, assignments, quizzes, homework, class exercises, student's participation in class or any structured academic activities: 10% - 60%
- d. The weight for students' attendance: 0 - 10%
- e. The total percentage of weighting has to reach 100%

1.6.2. Grading System

The Campus's grading system as follows:

Letter Grade	Raw Score	Conversion Score	Description
A	$85 \leq X < 100$	4.0	<i>Outstanding</i>
A-	$80 \leq X < 84.9$	3.75	<i>Excellent</i>
B+	$75 \leq X < 79.9$	3.5	<i>Very Good</i>
B	$70 \leq X < 74.9$	3.0	<i>Good</i>
B-	$65 \leq X < 69.9$	2.75	<i>Satisfactory</i>
C+	$60 \leq X < 64.9$	2.5	<i>Above Average</i>
C	$55 \leq X < 59.9$	2.0	<i>Average</i>
D	$50 \leq X < 54.9$	1.75	<i>Below Average</i> <i>(fail)</i>
E	$0 \leq X < 49.9$	0	<i>Poor (fail)</i>
I			<i>Incomplete</i>

*C = passing for study program subjects and campus core subjects.

1.6.3. Fail Cases:

The lecturer may decide to give a grade of "Fail" (D / E / I) to students who commit any or all of these actions:

- Fail to attend class for 75% of the total class hours.
- Commit serious classroom violations, such as disturbing the peace and order, showing up drunk, using abusive or offensive language, harassing classmates or lecturers, etc.
- Cheating or plagiarism in quizzes or examinations.
- Any other actions that constitute a violation of JIU's existing regulations.

1.6.4. Retake of Subjects

Re-take or add subjects as long as:

- The total credit for one academic year is still less than 48 credits.
- There is no schedule conflict with other subjects.
- Within the capacity of the class.

1.6.5. Others

The rules that apply with regards to grading:

- (1) The grades are final and cannot be changed.
- (2) In case of an error regarding any of the grades, the student may report the matter to the lecturer concerned, who will then review the grade and act accordingly.
- (3) If there is a need to rectify an error in the campus academic information system, the lecturer should file a written request to the JIU Academic Affairs to have the grade rectified by Jakarta International University.

1.7. Grade-Point-Average (GPA)

1.7.1. Definition

The GPA shows the level of a student's success in learning for the courses that have been taken. The GPA is divided into a semester GPA (i.e., the GPA in one semester) and a cumulative GPA (i.e., the GPA over more than one semester).

1.7.2. Categories

The student's GPA is organized into the following categories:

- a. GPA of 3.75 - 4.00 = Cum Laude
- b. GPA of 3.51 - 3.74 = Distinction
- c. GPA of 2.75 - 3.50 = Very satisfactory
- d. GPA of 2.00 - 2.74 = Satisfactory

1.7.3. Calculating

GPA is the accumulation of the credits taken, multiplied by the weight of each course, divided by the number of credits taken that semester, with the formula:

K =	$\text{GPA} = \frac{\sum (K \times N)}{\sum K}$	the credit weight of each course taken during the semester
N =		the conversion score of grades

To calculate a GPA, see the example shown below:

Subject	Credit (K)	Grade	Conversion Score (N)	Value (K x N)
Religion	2	A	4.00	8
Indonesia Language	2	A	4.00	8
Pancasila and Citizenship	2	A-	3.75	7.5
English I	3	C+	2.50	7.5
Micro Economy	3	C	2.00	6
Mathematics Business & Economics	3	C	2.00	6
Introduction to Accounting I	3	C+	2.50	7.5
Introduction to IT I	3	B+	3.50	10.5
Global Leadership	1	B+	3.50	3.5
Total	22			64.5

$$\text{GPA} = \frac{\sum K \times N}{\sum K} = \frac{64.5}{22} = 2.93$$

- Combination of cumulative GPA and semester GPA for continuing a student's study load is illustrated in the study load table.

1.7.4. Criteria for Awards of Academic Excellence (Honors)

JIU Campus has determined the criteria for awards of academic excellence.

Total Cum GPA	Predicate	Remarks
3.75 – 4.00	Cum Laude	No C and D grade, not exceeding 8 (eight) semesters study program, no retake subjects, not a transfer student, and never get any academic and non-academic violation.
3.50 – 3.74	Distinction	None
2.75 – 3.50	Very Satisfactory	None
2.00 – 2.74	Satisfactory	None

1.8. Final Grade Report (GPA Report)

At the end of every semester, students receive an original copy of their Final Grade Report that shows the final grades they have obtained for the subjects taken during a particular semester. The grades in a Final Grade Report are deemed final and cannot be changed, except in cases where the lecturer has made a mistake in giving the grades; rectification must be made based on a written request to the Academic Department from the lecturer concerned. The Academic Department is responsible for issuing the Final Grade Report every semester.

Notes:

- *Students who would like to have original copies of their Final Grade Report, or who wish to have photocopies of their Final Grade Report validated as true copies of the original must report to the Academic Administration Department and pay a fee to have their Final Grade Report requests processed.*

1.9. Transcript of Records (TOR)

This document shows a student's entire academic performance in the course of obtaining an undergraduate degree. The grades in the TOR are deemed final and may not be changed, except in cases where there has been a systemic or technical error. In this case, the student may file a request to have the mistake corrected by obtaining approval from the Director of Academic Affairs and the Rector.

The following rules apply for grades that are shown in the WISE:

- (1) The grades are final and cannot be changed (except in cases mentioned above).
- (2) If a student has transferred from one study program to another, the grades in the TOR show his/her academic performance in the new study program and which subjects have been credited from the old study program to the new study program.
- (3) Any subjects from the old study program that had obtained a grade of "D," "F," or "P" shall be erased from the records upon authorization by the Dean of Academic Affairs.
- (4) Students who would like to have a temporary copy of their TOR may take it directly to Academic Affairs.
- (5) Students who would like to have an original copy of their TOR, or who wish to have photocopies of their TOR validated as true copies of the original, must report to the Academic Affairs Department and pay a fee to have their TOR requests processed.

1.10. Academic Transfer

Under this policy are the following categories:

1.10.1. Change of study programs/ faculty

Students who change from one study program to another after the first, second, or third semester should fill out the "Changing Study Program" form and obtain approval from their parents, student advisor, the current Head of Study Program, and the new Head of Study Program. Submit all GPA reports from the current study program to the new Head of Study Program to arrange the subject conversion (the subjects that can be credited to the new study program). Also, have consultations with the new Head of Study Program regarding the subjects that must be taken in every semester afterward. Return the form to Academic Affairs to obtain a new ID number for the new study program and to process the subjects' conversion.

1.10.2. Change of concentration

Students who change from one concentration to another after the first, second, or third semester should write a letter to the Head of Study Program stating the reasons for the change of major. The Head of Study Program shall then review and approve this request and assign the student a new Academic Adviser. The Academic Adviser will then review which subjects can be credited to the new major.

1.10.3. Transfer from another school

For transfer students from other higher education institutions, either inside or outside the country, who wish to transfer to the JIU Campus after the first, second, or third semester, JIU Campus can admit them as long as such students fulfill the requirements established by the government and JIU Campus. The regulations on admission will apply in this case. The Head of Study Program where the transfer student wishes to join shall review and evaluate the equivalence of academic subjects to be credited.

1.11. Academic Leave

Due to personal, academic, or official reasons, a student may choose to file for an academic leave from academic activities. The academic leave is not counted in the student's length of study. The student must secure an Academic Leave Form from Academic Affairs and obtain the approval of the Student Advisor and the Head of Study Program.

- (1) Generally, an academic leave is permitted for a maximum of two semesters. If the student does not report back to the campus after this period, the campus shall send a letter to the student concerned to verify his/her intention to return to the campus or not. If no reply is received 14 working days after the letter is sent, the student concerned will be considered to have resigned and will be dropped from the campus roll of students.
- (2) However, if there is a medical reason warranting time off from school (as attested by a valid doctor's recommendation stating the length of treatment, recovery, or hospitalization), the academic leave may be extended for another semester.
- (3) Students who have committed grave violations that are deemed serious by the campus shall be suspended and required to file for an academic leave. Students who have violated the laws of the state and must serve time for investigation or imprisonment shall be required to file for an academic leave.
- (4) Students who have not passed their thesis and would like to take some time off from school for personal reasons should apply for an academic leave for a maximum of two semesters.

1.12. Inactive Students

The following reasons would classify a student as inactive:

- a. Students who have finished their academic leave but do not report back to school.
- b. Students who do not enroll on time without information on their whereabouts.
- c. Students who have not completed their undergraduate degrees after two semesters have passed without applying for an academic leave.
- d. Students serving time in jail for a period of 3 months or more.

1.13. Re-instatement or Re-admission to The Campus

Re-instatement is the readmission of students who have been on academic leave and who wish to rejoin the same faculty/department/study program. Regulations for reinstatement after academic leave are as follows:

- (1) The student must submit a request directly to the appropriate Head of Study Program, together with a copy of the academic leave letter.
- (2) Requests for reinstatement must be submitted to the Head of Study Program two weeks before the enrollment period.
- (3) After receiving the approval letter, the applicant must register and fulfill all administrative obligations.
- (4) Grades entered on the student's transcript of records prior to the academic leave will still be valid.

1.14. Drop Out

A student is considered a dropout if he or she does not fulfill the academic requirements within the limits of the length of study. Afterwards, he or she is not allowed to continue and has to resign from the faculty or major. Factors attributing to dropping out are:

- (1) At the end of the first four semesters, the student fails to achieve at least 30 credit units and has a cumulative GPA of less than 2.00.
- (2) At the end of three semesters, the student fails to obtain a cumulative GPA of at least 2.00.
- (3) At the end of the 7th year, the student fails to finish the program.

1.15. Judicium

The Judicium is a process of endorsing and approving for graduation those students who have completed all the financial and academic requirements to obtain an undergraduate degree. The Judicium is initiated by the Dean of Academic after having endorsed to the Academic Administration Department a written request for the review and clarification of the status of a graduating student. The written request for Judicium received by the Academic Administration

Department is acted upon through a review process of the student's status and eligibility to graduate. If all is in order, the Academic Administration Department replies to the Dean of Academic confirming that review has been made and the names of students eligible to graduate is then forwarded. The Academic Administration Department then calls for the Campus Senate to be convened for the Judicium to take place.

The Judicium takes place two weeks after the Dean of Academic has submitted the final grades of graduating students.

1.15.1 Requirements

Requirements for the endorsement of Judicium for a graduating student:

- (1) The student must have completed all the academic and administration requirements
- (2) Administration requirements:
 - a. He/she is listed as currently enrolled and not on academic leave
 - b. He/she has no pending financial obligations (Finance, Library)
- (3) Academic requirements:
 - a. He/she has fulfilled the required number of academic credits dictated by DIKNAS (minimal: 144 credits) without any failed subjects (D or E or P).
 - b. He/she has completed the requirements for submission of final project, final research, or thesis.
 - c. He/she is not currently under any academic or disciplinary sanctions.

1.15.2. Criteria for Judicium:

- a. Cumulative GPA 2.00
- b. Total study semesters: 8-14 semesters
- c. No failed grades
- d. No incomplete subjects
- e. Maximum academic leave 2 semesters
- f. Minimum C on each general subject (MKU)
- g. Maximum total number of credits (sks) D grade should be 6 credits (sks)

- h. Minimum C on each concentration subjects
- i. Minimum C on Internship

1.15.3. Judicium Process:

- (1) The Head of Study Program sends a letter to the Heads of Operating Units (Academic and Finance) endorsing the students who will be graduated. Academic and Finance then conducts the assessment process to verify the students' eligibility to graduate.
- (2) Academic and Finance then sends a written report to the Dean of Faculties informing them of the result of the assessment process
- (3) If the academic and administrative requirements are met, the Deans of Faculty calls a Judicium meeting.
- (4) The result of the meeting is signed by the Dean and the Program Heads.
- (5) The result is then forwarded to the Rector of Jakarta International University.
- (6) The Rector issues an SK Judicium.
- (7) The student is then informed of the result through a formal letter with the following original documents:
 - a. Copy of the result of the Judicium meeting
 - b. Judicium Decree signed by the Rector of Jakarta International University.
 - c. Students who are not be eligible to graduate also receive a formal letter stating the reasons why they are not eligible to graduate, and what they must do to fulfill the requirements for graduation.
